

How to grade a Turnitin assignment

Please note: Turnitin is not yet completely integrated with the Blackboard Vista Grade Book tool. Grades given to Turnitin assignments may have to be entered into the Grade Book manually.

1. Go to the Teach Tab
2. Navigate to, then click on the link to the Turnitin Assignment
3. For assignments that have been submitted, click on the link to the title of the assignment

4. In the field labeled "GRADE" enter the grade, which should be saved automatically to the Blackboard Vista Grade Book. (If you do not see the grade in the Grade Book, you may have changed or deleted the name of the column that was automatically created for this Turnitin assignment in Blackboard Vista.)

Please note: If you're having trouble getting the grades to transfer from GradeMark to the Blackboard Vista Grade Book tool, the Turnitin helpdesk can assist. When calling the Turnitin helpdesk (1-866-816-5046) have the paper ids for the grades that didn't transfer on hand, so that they can best assist you.
